Overview

I founded the WEISER group at the National University of Singapore.

- **Mentorship:** Currently advise **six** PhD students and **three** master's students. Graduated **one** PhD student and **sixteen** master's students, mentored **two** postdoctoral researchers, and supervised over **twenty** undergraduate students.
- **Funding:** Secured over **1.2 million USD** across **seven** grants, including a Google Research Scholar Award and the ABB Research Award (300,000 USD)—the largest endowment by a commercial organisation for early-career researchers.
- **Publications:** Published in flagship venues such as ACM MobiCom, MobiSys, SenSys, IEEE/ACM Transactions on Networking, and IMWUT. Received a Best Paper Award and multiple Best Demonstration Awards.
- **Industry Impact:** International Patent Application (Sole Inventor) cited as foundational prior art by **14+** patents from Nokia, Vivo Mobile, KAIST, and Oppo. Research featured in press releases by ABB and Google.
- **Teaching:** Courses in embedded systems and wireless networking.
- **Service:** Served as a reviewer and program committee member for top-tier international conferences in mobile computing, networking, and sensing (ACM MobiCom, SenSys, MobiSys, IEEE INFOCOM, ACM IMC). Organised and chaired sessions at major conferences with hundreds of attendees (ACM EWSN, ACM/IEEE IPSN, IEEE RFID).

Education

Uppsala University, Uppsala, Sweden **2012–2018**

Ph.D., Computer Science

Dissertation: *Enabling Sustainable Networked Embedded Systems*

Advisor: Prof. Thiemo Voigt (Uppsala University and RI.SE SICS, Sweden)

Co-advisor: Prof. Luca Mottola (Politecnico di Milano, Italy and RI.SE SICS, Sweden)

Opponent: Prof. Prabal Dutta (University of California, Berkeley, USA)

Dissertation awarded the ABB Research Award in Honor of Hubertus von Grünberg.

Selection rate: approximately 1 in 60. Endowment of 300,000 USD.

Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar, India **2007–2011**

B.Tech., Information and Communication Technology

Appointments

National University of Singapore **2022–Present**

Assistant Professor

Department of Computer Science

School of Computing

University of California, Berkeley, CA, USA **2020–2022**

Postdoctoral Scholar

Mentor: Prof. Prabal Dutta

Royal Institute of Technology (KTH), Stockholm, Sweden **2021**

Visiting Researcher (on leave from UC Berkeley)

Uppsala University, Uppsala, Sweden **2018–2020**

Postdoctoral Scholar

NXP Semiconductors **2012**

Software Engineer

Embedded Wireless Networks / Low-Power Wireless Group

Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar, India **2011–2012**

Research Engineer

Networked Embedded Systems Lab

Mentor: Prof. Prabhat Ranjan (Ph.D., UC Berkeley, 1986)

Awards

IMWUT Distinguished Paper Award. **2026**

For *AudioCast: Enabling Ubiquitous Connectivity for Embedded Systems through Audio-Broadcasting Low-Power Tags*.

Proceedings of the ACM on Interactive, Mobile, Wearable and Ubiquitous Technologies.

PACM IMWUT.

Honourable Mention, International Low Power Design Contest. **2026**

For *Microwatt Microwave (M^2) Oscillator: Enabling 105 μW, Stable and Standalone Transceivers*.

ACM/IEEE International Symposium on Low Power Electronics and Design.

ACM/IEEE ISLPED.

Featured Paper. **2026**

For *Microwatt Microwave (M^2) Oscillator: Going Beyond the Delegation Architecture of Low-power Wireless Communication*.

ACM International Conference on Mobile Systems, Applications, and Services.

ACM MobiSys.

Best Poster Award Runner-Up. **2026**

For *Microwatt Microwave (M^2) Oscillator: Going Beyond the Delegation Architecture of Low-power Wireless Communication*.

ACM International Conference on Mobile Systems, Applications, and Services.

ACM MobiSys.

Google Award for Machine Learning Research and Education with TPUs. **2026**

TinyLLM: Deploying Tiny Language Models at the Edge for Sensing and Education.

Google Research Scholar Award. **2024**

From Supply Chains to Personal Belongings: Designing Zero-Battery Trackers.

The only faculty member outside North America awarded in the Systems and Networking category for this year.

Best Demonstration Award (Runner-Up). **2024**

ACM/IEEE International Conference on Information Processing in Sensor Networks.

ACM/IEEE IPSN.

Best Demonstration Award. 2023
ACM International Conference on Mobile Systems, Applications, and Services.
ACM MobiSys.

FORM+FUND Fellow. 2021
University of California, Berkeley (Spring Cohort).

ABB Research Award in Honor of Hubertus von Grünberg. 2019
Recipient of a 300,000 USD endowment.
Awarded by Peter Voser (Chairman/CEO of ABB).
Largest commercial endowment for early-career researchers.

Attractive Innovation Project. 2019
Uppsala University Innovation (Selected as Top 15 Project).

Breakthrough Ideas Grant. 2018
Swedish Innovation Agency (Vinnova).

Best Demonstration Award. 2018
ACM Conference on Security and Privacy in Wireless and Mobile Networks.
ACM WiSec.

Best Paper Award. 2017
ACM Workshop on Visible Light Communication Systems, co-located with MobiCom.
ACM VLCS.

Honours to Mentored Students

Symbols: ■ doctoral (Ph.D.) student, ■ master's student, ■ undergraduate student.

Rising Star. 2026
Awarded to mentee Pramuka Sooriya Patabandige■.
ACM International Conference on Mobile Systems, Applications, and Services.
ACM MobiSys.

Selected for the ASSET Student Symposium. 2026
Awarded to mentees Pramuka Sooriya Patabandige■ and Spanddhana Sara■.
Albion Student Symposium on Emerging Technologies, co-located with ACM MobiSys.
ACM MobiSys.

N^{2}Women Fellowship. 2026
Awarded to mentee Spanddhana Sara■.
ACM International Conference on Mobile Computing and Networking.
ACM MobiCom.

ACM-W Scholarship Award. 2026
Awarded to mentee Celes Chai Jia Xuan■.

Rising Star. 2025
Awarded to mentee Rajashekar Reddy Chinthalapani■.
ACM International Conference on Mobile Systems, Applications, and Services.
ACM MobiSys.

NUS Computing Innovation Prize. 2024

Awarded to mentee Nobel Ang.

Individual Category (SCS–SoC Prize) for his Final Year Project, *Connecting IoT Devices to Cloud and Edge Devices*.

Awarded by NUS Computing and the Singapore Computer Society.

Winner, Undergraduate Category. 2023

Awarded to mentees Moteen Shah (visiting from VJTI) and Adithya Bijoy (visiting from IITD).

ACM Student Research Competition (SRC) at MobiCom.

ACM MobiCom.

Third Place, Undergraduate Category. 2023

Awarded to mentee Steven Waskito.

ACM Student Research Competition (SRC) at MobiCom.

ACM MobiCom.

Best Demonstration Award. 2023

Awarded to mentee Wenqing Yan.

ACM International Conference on Mobile Systems, Applications, and Services.

ACM MobiSys.

N²Women Young Researcher Fellowship. 2021

Awarded to mentee Wenqing Yan.

Best Ph.D. Forum Award. 2020

Awarded to mentee Wenqing Yan.

ACM Conference on Embedded Networked Sensor Systems.

ACM SenSys.

Winner, Graduate Category. 2017

Awarded to mentee Andreas Soleiman.

ACM Student Research Competition (SRC) at MobiCom.

ACM MobiCom.

Grants

From Supply Chains to Personal Belongings: Designing Zero-Battery Trackers. 2024

Google Research Scholar Award.

Role: Principal Investigator (Sole PI).

Amount: 35,000 USD (Unrestricted Gift).

Tackling the Challenge of Energy-Efficient Reception to Enable the Next Billion IoT Devices. 2023–2026

Ministry of Education (Singapore) Tier 1 Grant.

Role: Principal Investigator (Sole PI).

Amount: 250,000 SGD.

Enabling Continuous, Real-time Monitoring of Human Vitals through Battery-free Tunnel Diode Sensors. 2022–2025

NUS ARTIC Centre.

Role: Principal Investigator (Sole PI).

Amount: 214,000 SGD.

Enabling Non-Intrusive Monitoring of Internet of Things. 2022–2024
NUS-NCS Joint Centre.
Role: Principal Investigator (PI) with Co-PI Shantanu (NCS).
Amount: 465,000 SGD.

Enabling Sustainable and Large-Scale Wireless Networks of Embedded Systems. 2022–2026
NUS ODPRT (Start-up Grant).
Role: Principal Investigator (Sole PI).
Amount: 250,000 SGD.

Towards Future Factories: Enabling Sustainable Sensing. 2019–2022
ABB Research Award in Honor of Hubertus von Grünberg.
Role: Awardee (Hosted at UC Berkeley).
Amount: 300,000 USD.

Enabling Factories of the Future Using Sustainable Sensing. 2018–2019
VINNOVA (Swedish Innovation Agency).
Role: Principal Investigator (Sole PI).
Hosted at Uppsala University.
Amount: 499,000 SEK (approx. 50,000 USD).

Selected Publications

Symbols next to author names indicate the enrolment status of students: • postdoctoral scholar, ■ doctoral (Ph.D.) student, ■ master's student, and ■ undergraduate student. Only students and scholars directly mentored by me are marked.

[1] *Hark: Breaking Receiver Power Limits of LoRa*. A. Gamage•, Sooriya Patabandige Pramuka Medaranga■, Spanddhana Sara■, and Ambuj Varshney. ACM MobiCom 2026.

[2] *Microwatt Microwave (M^2) Oscillator: Going Beyond the Delegation Architecture of Low-power Wireless Communication*. Sooriya Patabandige Pramuka Medaranga■, Dhairya Jigar Shah■, Rajashekar Reddy Chinthalapani■, Spanddhana Sara■, Prabal Dutta, and Ambuj Varshney. ACM MobiSys 2026.
Featured Paper; Best Poster Award Runner-Up.

[3] *HILO: Enabling Low-power, Dual-Band Communication using Tunnel Diode Oscillators*. Dhairya Jigar Shah■, Rajashekar Reddy Chinthalapani■, Sooriya Patabandige Pramuka Medaranga■, and Ambuj Varshney. IEEE RFID 2026.

[4] *AudioCast: Enabling Ubiquitous Connectivity for Embedded Systems through Audio-Broadcasting Low-Power Tags*. Rajashekar Reddy Chinthalapani■, Dhairya Jigar Shah■, Nobel Ang■, and Ambuj Varshney. ACM IMWUT 2025 / UbiComp 2025.
IMWUT Distinguished Paper Award.

[5] *Unraveling the Missing Link in Low-Power Communication: An Autodyning Receiver that Achieves a Long Range*. Sooriya Patabandige Pramuka Medaranga■, Rajashekar Reddy Chinthalapani■, Wenqing Yan■, Prabal Dutta, and Ambuj Varshney. ACM MobiSys 2025.

[6] *Radio Frequency Communication Device for Low-Power Communication*. Inventor: Ambuj Varshney (Sole Inventor). International Patent Application (PCT): WO2021040594A1.
Industry Impact: Cited as foundational prior art by 14+ patents from industry and academic leaders, including Nokia, Vivo Mobile, KAIST, and Oppo.

[7] *LiFi for Low-Power and Long-Range RF Backscatter*. Muhammad Sarmad Mir, Borja G. Guzman, Ambuj Varshney, and Domenico Giustiniano. IEEE/ACM Transactions on Networking, Vol. 32, No. 3, 2024.

[8] *TunnelSense: Low-Power, Non-Contact Sensing Using Tunnel Diodes*. L. C. Q. Thaddeus■, C. R. Reddy■, Y. S. Bhadauria■, Dhairya Jigar Shah■, M. Gulati•, and Ambuj Varshney. IEEE RFID 2024.

[9] *PixelGen: Rethinking Embedded Cameras for Mixed-Reality*. Kunjun Li■, Manoj Gulati•, Dhairya Jigar Shah■, Steven Waskito■, Shantanu Chakrabarty, and Ambuj Varshney. ACM ImmerCom 2024 (co-located with MobiCom).
Best Demonstration Runner-Up, ACM/IEEE IPSN 2024.

[10] *Beyond Broadcasting: Revisiting FM Frequency-Band for Providing Connectivity to Next Billion Devices*. C. Rajashekar Reddy■, Manoj Gulati•, and Ambuj Varshney. ACM ENSsys 2023 (co-located with ACM SenSys).

[11] *TunnelLiFi: Bringing LiFi to Commodity Internet of Things Devices*. Muhammad Sarmad Mir, Wenqing Yan■, Prabal Dutta, Domenico Giustiniano, and Ambuj Varshney. ACM HotMobile 2023.

[12] *Making Low-Power and Long-Range Wireless Backscatter Transmitters*. Ambuj Varshney. ACM GetMobile 2022. **Invited Contribution.**

[13] *Judo: Addressing the Energy Asymmetry of Wireless Embedded Systems through Tunnel Diode-Based Wireless Transmitters*. Ambuj Varshney, Wenqing Yan■, and Prabal Dutta. ACM MobiSys 2022.

[14] *Tunnel Emitter: Tunnel Diode-Based Low-Power Carrier Emitters for Backscatter Tags*. Ambuj Varshney and Lorenzo Corneo. ACM MobiCom 2020.

[15] *Two to Tango: Hybrid Light and Backscatter Networks for Next Billion Devices*. Ambuj Varshney*, Ander Galisteo*, and Domenico Giustiniano. ACM MobiSys 2020.
***Co-primary authors contributing equally.**

[16] *TunnelScatter: Enabling Low-Power Communication for Sensor Tags Using Tunnel Diodes*. Ambuj Varshney, Andreas Soleiman■, and Thiemo Voigt. ACM MobiCom 2019.

[17] *Battery-Free Visible Light Sensing*. Ambuj Varshney, Andreas Soleiman■, Luca Mottola, and Thiemo Voigt. ACM VLCS 2017 (co-located with MobiCom).
Best Paper Award.

[18] *LoRea: A Backscatter Architecture that Achieves a Long Communication Range*. Ambuj Varshney, Oliver Harms■, Carlos Perez Penichet, Christian Rohner, Frederik Hermans, and Thiemo Voigt. ACM SenSys 2017.

[19] *Directional Transmissions and Receptions for High-Throughput Bulk Forwarding in Wireless Sensor Networks*. Ambuj Varshney, Luca Mottola, Mats Carlsson, and Thiemo Voigt. ACM SenSys 2015.

[30] Ambuj Varshney, Luca Mottola, Thiemo Voigt. *Directional Transmissions and Receptions for Burst Forwarding Using Disjoint Paths*. In Proceedings of the 13th ACM/IEEE International Conference on Information Processing in Sensor Networks (**ACM/IEEE IPSN**), 2014.

[31] Ambuj Varshney, Luca Mottola, Thiemo Voigt. *Directional Transmissions and Receptions for High Throughput Burst Forwarding*. In Proceedings of the 11th ACM Conference on Embedded Networked Sensor Systems (**ACM SENSYS**), 2013.

Talks

Building Sticker Computers. **2023**

Nanyang Technological University, Singapore.

ABB Research Award Conclusion Presentation. **2022**

ABB Corporate Research Center, Switzerland.

Invited Talk. Audience included the CEO of ABB.

Tackling the Energy Asymmetry between Sensing, Computation, and Communication in Wireless Embedded Systems. **2021**

Imperial College London, held virtually.

Tackling the Energy Asymmetry between Sensing, Computation, and Communication in Wireless Embedded Systems. **2021**

National University of Singapore, held virtually.

Tackling the Energy Asymmetry between Sensing, Computation, and Communication in Wireless Embedded Systems. **2021**

ETH Zurich, held virtually.

Tackling the Energy Asymmetry between Sensing, Computation, and Communication in Wireless Embedded Systems. **2021**

IMDEA Networks Institute, Spain, held virtually.

Towards Ubiquitous Sensing: Tackling the Energy Asymmetry between Sensing, Computation, and Communication in Wireless Embedded Systems. **2021**

Aalto University, Finland, held virtually.

Science and Innovation Week 2020: Green Light for the Earth. **2020**
Exhibition, Science and Innovation Week 2020, IMDEA Networks Institute, Spain.

Enabling Sustainable and Widespread Sensing. **2020**
ACM SIGMOBILE India Chapter, held virtually.
Invited Talk.

Tunnel Emitter: Tunnel Diode based Low-Power Carrier Emitters for Backscatter Tags. **2020**
ACM MobiCom 2020, London, UK, held virtually.
Conference Talk.

Two to Tango: Hybrid Light and Backscatter Networks for Next Billion Devices. **2020**
ACM MobiSys 2020, Toronto, Canada, held virtually.
Conference Talk.

Enabling Ubiquitous and Sustainable Sensing Systems. **2020**
ABB Corporate Research Center, Sweden.
Invited Talk. Host: Dr. Alf Isaksson.

ABB Research Award Presentation. **2019**
ABB Corporate Research Center, Switzerland.
Invited Talk. Audience included the CEO of ABB, Peter Voser, and the CTO of ABB, Bazmi Husain.

TunnelScatter: Low Power Communication for Sensor Tags using Tunnel Diodes. **2019**
ACM MobiCom 2019, Los Cabos, Mexico.
Conference Talk.

Wearable Polymorphic Light Sensors. **2019**
ACM WearSys 2019 (co-located with ACM MobiSys 2019), Seoul, South Korea.
Conference Talk.

Back to the Future: Enabling Sustainable and Ubiquitous Sensing Systems. **2019**
IMDEA Networks Institute, Madrid, Spain.
Invited Talk. Host: Prof. Dr. Domenico Giustiniano.

LoRea: A Backscatter Architecture that Achieves a Long Communication Range. **2017**
ACM SenSys 2017, Delft, Netherlands.
Conference Talk.

Towards Wide-Area Backscatter Networks. **2017**
ACM HotWireless 2017 (co-located with ACM MobiCom 2017), Snowbird, Utah, USA.
Conference Talk.

Battery-free Visible Light Sensing. **2017**
ACM VLCS 2017 (co-located with ACM MobiCom 2017), Snowbird, Utah, USA.
Conference Talk.

Networking Next Billion Devices Using Backscatter Communication. **2017**
IoT Meetup, Stockholm, Sweden.
Invited Talk.

Directional Transmissions and Receptions for High-throughput Bulk Forwarding in Wireless Sensor Networks. **2015**
IIIT Delhi, Delhi, India.
Invited Talk.

Directional Transmissions and Receptions for High-throughput Bulk Forwarding in Wireless Sensor Networks. 2015

ACM SenSys 2015, Seoul, South Korea.

Conference Talk.

Using Directional Transmissions and Receptions to Reduce Contention in Wireless Sensor Networks. 2013

REALWSN 2013, Como, Italy.

Conference Talk.

Supervision

Doctoral Students (Current)

Pramuka Sooriya Patabandige (NUS). 2023–2027

Role: Sole primary advisor.

Rajashekar Reddy Chinthalapani (NUS). 2023–2027

Role: Sole primary advisor.

Savitha Viswanadh Kandala (NUS). 2023–2028

Role: Sole primary advisor.

Dhairya Shah (NUS). 2024–2028

Role: Sole primary advisor.

Spanddhana Sara (NUS). 2026–2030

Role: Sole primary advisor.

Anna Seiderer (Uppsala University). 2025–2030

Role: Co-supervisor (with Prof. Christian Rohner).

Postdoctoral Researchers (Alumni)

Dr. Amalinda Gamage. 2025–2026

Background: Ph.D., Nanyang Technological University (with Prof. Mo Li).

Dr. Manoj Gulati. 2023–2024

Background: Ph.D., IIIT Delhi.

Visiting Scholar at University of Washington (with Prof. Shwetak Patel).

Placement: Principal Application Engineer, Western Digital.

Doctoral Students (Alumni)

Dr. Wenqing Yan (Uppsala University). 2018–2024

Co-supervised with Prof. Christian Rohner and Prof. Thiemo Voigt.

Design and Identification of Wireless Transmitters for a Low-Power and Secure IoT.

Opponent: Prof. Haitham Hassanieh (EPFL).

Committee: Prof. Niki Trigoni (Oxford), Prof. Danny Hughes (KU Leuven).

Placement: Experienced Researcher, Ericsson Research, Sweden.

Master's Supervision

Current Students (National University of Singapore)

Tikyi Min Khant Naing. **2025–Present**

Exploring machine learning (TinyML) on embedded devices.

Meng Xianyu. **2025–Present**

Rethinking Embedded Cameras Using Image and Language Models.

Li Shuaixian. **2025–Present**

Rethinking Embedded Cameras Using Image and Language Models.

Alumni (National University of Singapore)

Andre Teo Ser Yeong. **2025**

Huang Keyi. **2025**

Dennis Patrick Warfield. **2025**

Henrikus Theorizchy Cleven. **2024**

Hew Sock Fang. **2024**

Wu Zihao. **2024**

Chee Han Quan, Edison. **2024**

Qiao Yukai. **2023**

Yusril Izza. **2023**

Goh Sheen An. **2023**

Placement: Lead Software Engineer, GovTech Singapore.

Lim Soon Lee. **2023**

Placement: MINDEF.

Alumni (Uppsala University)

Andreas Soleiman. **2017–2019**

Battery-free Visible Light Sensing.

Placement: Ph.D. Student at MIT (Prof. Fadel Adib).

Abdullah Hylamia. **2018**

Battery-free Radio Tomographic Imaging.

Placement: Ph.D. Student at Uppsala University.

Gustav Eriksson. **2018**

Towards Long-Range Backscatter Communication Using Tunnel Diode Amplifiers.

Placement: Engineer at Intertek Semko.

Oliver Harms. **2016–2017**

Modulation Schemes in Ambient Backscatter Communication.

Placement: Ph.D. Student at Chalmers University.

Elena Di Lascio. **2016**

A Battery-free Indoor Localization System.

Placement: Ph.D. Student at USI Lugano, Switzerland.

Undergraduate Research

Independent research projects (UROP and similar programs).

Koh Wei Long, Dylan. **2025 (Ongoing)**

Backhauling Networks and Internet of Things.

Celes Chai Jia Xuan. **2025**

Networking mixed reality headsets through LiFi (visible light communication).

Zhang Lanyu. **2024**

Tracking of everyday activities from voice to vision using large language and image models.

Undergraduate Projects

Final year capstone and thesis projects.

Academic Year 2024/2025

Wang Minhong.

Building an Embedded Operating System (Tiku).

Fu Yiqiao.

Building an Embedded Operating System (Tiku).

Sean Wang.

Earth Computers.

Daniel Goh Chin Hao.

Backhauling Networks and Internet of Things.

Academic Year 2023/2024

Steven Antya Orvala Waskito.

OTTER: Sensor Data Processing and Analysis Using Large Language Models.

Leong Huen Weng.

Tracking of Everyday Activities from Voice to Vision Using Large Language Models.

Yang Jiacheng.

Battery-free Sensing and Communication through Tunnel Diodes.

Goh Jun Yi.

Networking Mixed Reality Headsets through LiFi.

Tan Guo Xuan, Marcus.

Networking Mixed Reality Headsets through LiFi.

Tang Ethan Yidong.

Networking Internet of Things through Backhauling Networks.

Kaemon Ng Chongyu.

Networking Internet of Things through Backhauling Networks.

Li Po Hsien.

Language Models Distributed on Edge Devices.

Academic Year 2022/2023

Lim Chang Quan Thaddeus.

Heartbeat and Breathing Sensing Using Low-Power Wireless Signals.

Led to IEEE RFID 2024 publication.

Marcus Tang Xin Kye.

Making Internet of Things Devices Interact with ChatGPT.

Heng Chen Kai, Darren.

Sustainable Internet of Things on Capacitors.

Hu Yuxin.

Brain Machine Interface.

Nobel Ang.

Connecting IoT Devices to Cloud and Edge Devices.

Wong Chee Hong.

Computing on Internet of Things Devices.

Juliet Teoh Qian Ying.

Computing on Internet of Things Devices.

Research Assistants and Other Alumni

Simon Olofsson.

Role: Research Assistant.

Convergecast Using Directional Antennas.

Achievement: Co-authored EWSN 2019 paper.

Placement: Ph.D. at Imperial College London; subsequently at Meta.

David Hakansson.

Role: Bachelor Thesis Student.

Energy Harvesting Environment Control.

Service

Conference Organization and Leadership

Posters Co-Chair, ACM Conference on Embedded Networked Sensor Systems. **2027**

ACM SenSys.

Special Session Co-Chair, Beyond Conventional Backscatter (with Prof. Gregory Durgin), IEEE International Conference on RFID. **2026**
IEEE RFID.

Posters and Demos Co-Chair, ACM International Conference on Embedded Wireless Systems and Networks (with Thomas Watteyne). **2025**
ACM EWSN.

Web Chair, ACM International Conference on Mobile Computing and Networking. **2023**
ACM MobiCom.

Session Chair, IEEE International Conference on Computer Communications. **2022**
IEEE INFOCOM.

Publicity Chair, IEEE International Conference on Sensing, Communication, and Networking. **2020**
IEEE SECON.

Posters Co-Chair, ACM/IEEE International Conference on Information Processing in Sensor Networks (with Nirupama Bulusu). **2019**
ACM/IEEE IPSN.

Panelist, Ph.D. Forum, ACM/IEEE International Conference on Information Processing in Sensor Networks (with Olga Saukh and Anthony Rowe).
ACM/IEEE IPSN.

Technical Program Committee Membership

ACM International Conference on Mobile Computing and Networking. **2027**
ACM MobiCom.

ACM Conference on Embedded Networked Sensor Systems.
ACM SenSys.

ACM International Conference on Mobile Computing and Networking. **2026**
ACM MobiCom.

ACM/IEEE Conference on Embedded Networked Sensor Systems.
ACM/IEEE SenSys.

ACM International Conference on Mobile Systems, Applications, and Services.
ACM MobiSys.

IEEE International Conference on Sensing, Communication, and Networking.
IEEE SECON.

ACM Conference on Embedded Networked Sensor Systems. **2025**
ACM SenSys.

IEEE International Conference on Computer Communications.
IEEE INFOCOM.

ACM Internet Measurement Conference.
ACM IMC.

ACM Internet Measurement Conference. **2024**
ACM IMC.

ACM Conference on Embedded Networked Sensor Systems.

ACM SenSys.

IEEE International Conference on Computer Communications.
IEEE INFOCOM.

ACM International Conference on Embedded Wireless Systems and Networks.
ACM EWSN.

IEEE International Conference on Computer Communications. **2023**
IEEE INFOCOM.

ACM/IEEE International Conference on Internet of Things Design and Implementation.
ACM/IEEE IoTDI.

IEEE International Conference on Computer Communications. **2022**
IEEE INFOCOM.

IEEE International Conference on Computer Communications. **2021**
IEEE INFOCOM.

IEEE International Conference on Distributed Computing Systems.
IEEE ICDCS.

IEEE International Conference on Distributed Computing in Smart Systems and the Internet of Things.
IEEE DCOSS-IoT.

ACM/IEEE International Conference on Internet of Things Design and Implementation. **2020**
ACM/IEEE IoTDI.

IEEE International Conference on Distributed Computing in Smart Systems and the Internet of Things.
IEEE DCOSS-IoT.

IEEE International Conference on Distributed Computing Systems. **2019**
IEEE ICDCS.

Selected Workshop Program Committee

6th International Workshop on Negative Results in Pervasive Computing (PerFail). **2027**
IEEE PerCom Workshops.

5th International Workshop on Negative Results in Pervasive Computing (PerFail). **2026**
IEEE PerCom Workshops.

13th International Workshop on Energy Harvesting & Energy-Neutral Sensing Systems, in conjunction with ACM SenSys at CPS-IoT Week. **2026**
ACM ENSsys.

12th International Workshop on Energy Harvesting & Energy-Neutral Sensing Systems, in conjunction with ACM SenSys at CPS-IoT Week. **2025**
ACM ENSsys.

11th International Workshop on Energy Harvesting & Energy-Neutral Sensing Systems, in conjunction with ACM SenSys at CPS-IoT Week. **2024**
ACM ENSsys.

2nd International Workshop on Negative Results in Pervasive Computing (PerFail). **2023**
IEEE PerCom Workshops.

Coverage in Popular Media

“Shrinking AI to Fit the Real World: Assistant Professor Ambuj Varshney Receives 2026 Google Research Award.” **2026**
NUS Computing, 5 June 2026.

“Reimagining Connectivity: How AudioCast Delivers Ultra-Low-Power Wireless Communication at Scale.” **2025**
NUS Computing, 21 August 2025.

“Assistant Professor Ambuj Varshney wins 2024 Google Research Scholar Award.” **2024**
NUS Computing, 7 June 2024.

“Assistant Professor Ambuj Varshney wins Best Demonstration Award at ACM MobiSys 2023.” **2023**
NUS Computing, 18 June 2023.

“Making IoT devices that are everlasting.” **2023**
NUS Computing, 9 March 2023.

“Can PassiveLiFi make batteries for IoT obsolete?” **2021**
Stacey on IoT, 7 December 2021.

“IoT Devices Will No Longer Need to Rely on Batteries to Operate.” **2021**

IMDEA Networks, 28 October 2021.

“Wireless communication devices without batteries? Research and sustainability, united through light.” **2021**
TechXplore, 28 October 2021.

“Ultra-low power consumption sensors: battery-free sensors make the Internet of Things more sustainable.” **2019**
UU Innovation, Attractive Innovation Project Awards 2019.

“ABB Research Award 2019 to Battery-free Sensor Research.” **2019**
Uppsala University News, 13 November 2019.

“ABB Research Award 2019 goes to battery-free sensor project.” **2019**
ABB Group press release, 12 November 2019.

Positions of Trust

Internal Doctoral Examination, Ph.D. Oral Defence of Wu Dan, National University of Singapore. **2025**

Advisor: Tulika Mitra.

Committee: He Bingsheng, Ambuj Varshney, and Jialin Li (Head of Department Representative).

Internal Doctoral Examination, Ph.D. Oral Defence of Choi Inho, National University of Singapore. **2025**

Advisor: Jialin Li.

Committee: Ma Tianbai Richard, He Bingsheng, and Ambuj Varshney (Head of Department Representative).

Internal Doctoral Examination, Ph.D. Oral Defence of Yu Miao, National University of Singapore. **2025**

Advisor: Trevor Carlson.

Committee: Peh Li Shiuan, Wong Weng Fai, and Ambuj Varshney (Head of Department Representative).

External Examiner, Ph.D. Thesis of Cheng Jiang, *Advancing Wireless Sensing in Granularity, Efficiency, and Generalization Across Diverse Wireless Technologies*, University of New South Wales (UNSW), Australia. **2025**

Jury Member, ABB Research Award in Honor of Hubertus von Grünberg. **2022**

Jury: Dr. Hubertus von Grünberg, Prof. Nina Thornhill (Imperial College London), Prof. Roland Siegwart (ETH Zurich), Prof. Manfred Morari (University of Pennsylvania), Dr. Ambuj Varshney (National University of Singapore), and Dr. Bernhard Eschermann (CTO, ABB Process Automation).

External Examiner, Ph.D. Thesis of Ander Galisteo, *Visible Light Communication Networks for IoT and its Application*, Universidad Carlos III de Madrid, Spain. **2020**

Reviewer of Grant, Advanced Research and Technology Innovation Centre (ARTIC), National University of Singapore.
